Skill Highlights

- Responsive UI/UX designing for Web/Mobile
- Wireframe designing and translation
- Application Front-end Architecture
- Performance Improvement
- Feature Designing and UI/UX Optimization.
- Cross platform application graphic designing for Mobility (Native/Hybrid)
- Complex problem solver
- Service Oriented Architecture
- Web and Mobility Architect

Technical Skills

- Languages and Technologies

JavaScript, CSS3, HTML5, MVC, JSON, REST full services, React Native, React JS, Webpack, Enzyme, Redux, Flex, Babel, NPM

- Environments

Windows, OS X, iOS and Android

- Tools

Android studio, Genymotion, Vysor, Visual Studio code, Atom, WebStorm, X firebase, Xcode

- Database

MSSQL Server, MySQL, SQLite

Summary

- An accomplished developer with 6+ years' experience, who excels at development, design, and branding. It includes comprehensive experience in analysis, technical design building MVPs and development. Having expertise in flexibility to thrive in any industry.
- Intensive expertise in React Native and React development including hands-on experience in identifying web and mobile based user interactions along with designing & implementing highly-responsive user interface components by deploying React concepts.
- Proficient in translating designs & wireframes into high-quality code, and writing application interface code via JavaScript and React JS workflows.
- Adept at monitoring & maintaining frontend performance and troubleshooting & debugging the same to bolster overall performance.
- Expertise in core B2B/B2C based enterprise solution development with native and cross platforms mobile application for ERP domain.
- Hands-on experience of all the phases of software development using various Agile and classic development methodologies.
- Combined experience of UI/UX in Native and Hybrid application platforms/environment-based application development (Windows/OSX/iOS/Android).
- Have a strong knack to combine strong technical skills with domain expertise with development best practices in Web/Mobile UI Designing, Wireframe & Design, Translation, Debugging, Front-end Architecture, Performance Improvement, Feature Designing, UI Optimization, Graphic Designing.

Work Experience

Senior Engineer,
Brillio Technologies Private Limited, Bangalore IN
January 2016 – August 2022

Working as a Full-time Front End Engineer on a Mobile ERP and employee engagement solution named OnTheGO, which is a proprietary product of Brillio Technologies which aims to deliver enterprise grade Mobile ERP solution, currently being used by 1000+ employees on a daily basis belonging to the firm and certain clients interested to adopt the product in their organization. As of now, OnTheGo is available on Web, Android, iOS, Windows and Mac platform.

Current job description role:

- **UI/UX Components Designing & Application Interface Coding**
 - Identified web-based user interactions and developed highly-responsive user interface components via React/ React Native
 - Translated designs & wireframes into high-quality code and wrote application interface for both mobile and web UI
- **Code Debugging & Front-end Architecture**
 - Troubleshoot interface software and debugged application codes to improve functionality and performance by 20% using SonarQube & React Testing Library
 - Developed and implemented front-end architecture to support User Experience concepts with 100% accuracy
- **Performance Optimization & Features Development**
 - Monitored and improved front-end performance by 15% using best practices for State management using Redux & Redux Saga and using Higher Order Components
 - Built reusable components & front-end libraries for future use
 - Optimized components for maximum performance across a vast array of web capable devices and browsers
- **Application Development & UI Designing**
 - Coordinated with the development team of 12 to discuss Information Architecture, User Research, Interaction and Visual Design
 - Reviewed application requirements and interface designs to ensure compatibility with existing applications
